

+ RAILROAD SQUARE YARMOUTH

PROJECT TYPE	COMMERCIAL . HOUSING
SERVICES PROVIDED	ARCHITECTURE + MASTER PLANNING
DATE COMPLETED	TBD
PHOTO CREDIT	RENDERINGS BY BARRETT MADE

'Railroad Square is an exciting redevelopment of the 4.4-acre Bickford Transportation site into a mixed-use neighborhood of residential, commercial and community uses. Located in the heart of the Village, the site has tremendous economic and community development potential...With [an active adult] community as the anchor of the new neighborhood, the remaining phases of development include smaller scale residential, business and community / cultural uses. This mixture of uses is open to the public - ensuring that Railroad Square as a neighborhood is integrated into the larger Yarmouth community. It will involve a combination of new and re-purposed buildings for community gatherings, fitness, the arts - as well as offering both business space and smaller residences. This will further advocate for the continued celebration of our quaint and connected community.'
